TR VINAY AGARWAL
RTI PRO

Dear Friends

Greetings from your RTI PRO for the year 2020-21. With this being the first Newsletter for the tabling year, allow me to introduce myself. I am Tr Vinay Agarwal from India, and I am a proud Tabler since 2015. As I continue the legendary work by Stephan Zipperlen at the PRO office from the last year, I'll be honest I do that a few jitters. One would expect the same looking at the splendid, flawless and, timely work done by my predecessor. One of my lessons learnt in tabling is - this zeal to continue the job where your predecessor has left and take it a notch higher for the movement you love is what makes you feel alive.

This first edition of the RTI Newsletter covers of the RT International events, and plans for the coming year. Starting this year is a quiz on all things related to Round Table, where the most number of correct entries by a tabler will get recognised by the RTI President at the RTI World Meeting.

Also attached with this Newsletter are sponsorship opportunities to get your service/product known across the globe with thousands of like minded people. I am looking forward to a rocking year. For anything and everything, I'm just a call or text away.

Cheers

ROUNDTABLE
INTERNATIONAL

GILLES WALERS

RTI Secretary
Round Table Luxembourg

Greetings from the RTI Secretary

Dear brothers from all over the world,

It is with great pleasure, honour and humility that I write my first column, as your RTI secretary, and I would like to grab the opportunity to thank all of you for putting your trust in my capacities to lead our wonderful association of fellowship and service from the backroom. Special thanks also go out to my home association, RT Luxembourg and my home table RT 3, who've pushed me to pull this adventure through.

So fast way forward, I am discovering every day how extraordinary our membership really is, through the many Zoom meetings I get to attend, the access to the compiled figures which make up RTI, as well as through the excellent ground work already by my predecessors. And while the perks of being RTI secretary are numerous, the most important one is the member contact. As RTI secretary, my aim is to be the single access point for membership concerns, messages and issues – I am after all YOUR secretary and as such am at your entire service with open ears and open heart for whatever you want to know or discuss.

The current period is certainly not an easy one and the COVID-19 pandemic along with its economic, social and professional consequences has taken a toll on our movement, in terms of not being able to enjoy the fellowship we long for, not seeing our brothers, or not being able to showcase the world what Round Table stands for. However, while we are undergoing this difficult time, it is truly inspiring to see and experience how much our original motto has grown into each member's DNA... "Adopt, Adapt, Improve". Never have we seen these words being more put into action than in the current period, where tablers prove on daily basis that a virus is not going to stop Round Table from being the best association in the world.

Behind the scenes, many tablers have also taken it upon themselves to review the very structure on which Round Table is formally built. As such, Round Table sees renewed efforts in its constitutional reform, both on an international level, as well as on a national and local level. With local and national members are increasingly looking into the right structural fit for their associations and tables, RTI stands ready to assist wherever possible for these members to find the most adapted solutions for their needs. As RTI secretary, I am, to this extent as well, at your entire disposal to discuss about best practices and obstacles you may encounter in this process.

ROUNDTABLE
INTERNATIONAL

RTI is actively engaging in honouring the mission its members have given it at the HYM'20 in Luxembourg and the 1st Virtual AGM to build a solid structure for RTI to develop to its fullest potential with a great line-up of brilliant ideas that the entire RTI board tries to put into action in the coming year(s). This important work initiated with the setup of the new legal structure of RTI in Luxembourg will be finalised in the coming years to ensure that RTI has the legal and structural security it requires to live up to our slogan "Fellowship through Service". The Global Service Project is one of the most amazing initiatives we have witnessed at RTI level showcasing to the world that we take our social role very important and are aware of the responsibility we have towards the world and those that are not as fortunate as ourselves.

With all these exciting processes being on their way, it is a real pleasure to participate actively in leading the change together with a league of extraordinary gentlemen who I have the honour to share the board with and we look forward to service all of you to the best of our capacities.

Yours in international tabling,

ROUNDTABLE
INTERNATIONAL

GRAHAM CORNELISSEN

RTI Vice President
Round Table International

Dear Brothers

Stepping into the role of RTI Vice President is a dream come true for any Tabler. I am truly humbled and honoured to be able to continue in the service of our great movement for the next two years.

Before taking on this responsibility, I took a long time to reflect on what it means to be a Tabler. We proudly mould ourselves on the Knights of the Round Table from the Arthurian legend. The Knights code includes the following traits - Mercy, Humility, Honour, Sacrifice, Faithfulness, Courage, Utmost graciousness and courtesy toward women.

I have included my candidate speech as given by me at the RTIWM last weekend. I took much inspiration from the virtues listed in the Knights Code to mould this and to be the kind of man that we should be as Tablers.

Edmund Burke famously said - "The only thing necessary for the triumph of evil is for good men to do nothing." From the traits listed, it is clear that we as Tablers must always rise up and be the better man. Take the hard road, do the right thing and always be a man of integrity.

We can all agree that the world needs more men of integrity, men who keep their word and men who are respectful to everyone – Our world needs more Tablers. Let us all take this next month and truly live out the ideals of being a proud Tabler.

"Good afternoon councillors, guests, and everyone following live on Facebook. My home is in South Africa, but for the last 2 years, I feel like a true Global Tabler

In my professional career as well as in Table, I Create Certainty. One of my roles has been to serve as your RTI Treasurer. During this time, I created certainty by leading the Future Funding, and the Constitutional working groups, as well as playing vital roles in the Global Service Project, the Taste the World movement, and many others.

During my life in Table, I have had one

ROUNDTABLE
INTERNATIONAL

guiding principle - What is best for Table? By measuring all I do against this, I never make short term decisions, and will always place Round Table above any individual needs. I believe in working collaboratively, while being able to make tough decisions. These might be unpopular, but better for Table in the long run.

The Coronavirus pandemic has shown us, that to survive; we need to fundamentally change our thinking with regards to Round Table, without losing our core values.

I have a vision for the future of Round Table. It is built on the following three pillars:

- Growth
- Service
- Striving for greatness

We need to challenge our own thinking with regards to the growth of RTI. Never be afraid to dream big, to want more, or to do what seems impossible. By growing each table by just one member, we will grow our membership by 10%. E-Clubs will change the way we look at external expansions by ensuring that we expand responsibly and sustainably. We must also grow what we have already planted. As Tablers, we are the first to stretch out a helping hand. Let us start with our fellow brothers who need it most. This however, will not be a hand of charity, but rather a gesture to work together. We should all do our part to ensure the growth of our beloved movement.

Secondly - Elected leaders are there to serve their members. The role of the Board must be to serve and assist our members and to bring people together. Never again must we hear "What does RTI do for us?" – our actions must show the value that we add. And it will. Upcoming plans include the leadership development programme, where we will grow future leaders to make a significant impact in our associations, as well as with the branding assistance to associations. This shows our commitment.

And finally - We have shaped our future and we have been on fire for tabling; now we have an opportunity to strive for greatness. Our greatness can only be measured by the impact that we have on others. Let us stand together in the Global Service Project; and ensure that our impact is felt across the world.

We are independently strong, but focussing on growth, service and striving for greatness we will become invincible.

Behind every good man stands a great woman. I am blessed to have the support of my wife Yvette, allowing me to be the best version of myself. She serves as the LCI treasurer; thus, she understands and fully supports me in this journey. We plan to take side-by-side to the next level.

Brothers I have a vision for Round Table. I believe in who we are, and what we stand for.

I have the skills, the support and the vision to do all that is required.

Thank you

ROUNDTABLE
INTERNATIONAL

DK SINGH

RTI President
Round Table India

Hello everyone,

We are now witnessing a massive change in the daily dynamics of our life. The COVID-19 crisis has hit the 'reset' button for all individuals. Businessmen, professionals, activists, and even policy makers are looking at these challenging times from a new perspective. But it's also important to note that in these testing times, we have discovered a golden opportunity: an opportunity to leave a lasting mark on the mankind through our movement. Tabling, by definition has been created to help and assist all in such unprecedented times. I urge all of you to ignite the spirit of leadership across your fraternity and impart unconditional support to those in need at every level.

As the 'new normal' penetrates deeper in our lives, we have to focus relentlessly on building everlasting bonds in our community. The COVID-19 crisis has forced us to rethink on how we build and maintain relationships. We would like to inspire you to build tabling in new ways. Start to focus on developing associations with fewer clubs which have the energy and vibe that match your frequency. The idea is that we should focus on quality rather than quantity. In this journey, I and my entire team are at your beck and call. We are with you at every step. We are always ready to help you! Reach us anytime! New Initiatives by the board:

- Real power today and tomorrow belongs to the youth. Round Table International is an organization that has been and will always be young at heart!
- As a wise man once said, nothing changes if you change nothing. It's time to unleash the power of Tablers. It's time to bring a change that will be noticed worldwide, an initiative that will bring all the noble causes like charity from clubs across the globe under a single platform
- For decades, We Tablers have shown that our power and the will to serve the society are unparalleled. With this compassion in our hearts, we set to bring a phenomenal change around the world. As we show the world that the young generation will lead the change to make the world a better place to live in, our leaders will take over the stage with a mission to improve lives with the 'THINK BIG' initiative. (A training module for the International Board)
- Constitution: Plans to make a clearer and precise constitution in multiple languages
- RTI University: An initiative for the LAPD which includes various training programs and talk shows with prominent tablers and people of great knowledge. It also has tie-ups with leading educational institutes for a greater knowledge reach

ROUNDTABLE
INTERNATIONAL

- Voice of a Tabler- A survey for tablers across the globe about tabling and it also includes outlining a clear road map for the coming years
- A robust PRO and social media team to craft digital content for branding for all associations who need it.

So, let's come together, sow the seed of change, and lead forward to transform the world into a better place! LET'S LEAD THE CHANGE!!!

DIGITAL MARKETING AS AN EFFICIENT TOOL

We have split the PRO position into two posts. The RTI Online Media Manager is responsible for assessing the usage of the various online marketing platforms available by RTI and the underlying associations and advise how the use of this can be optimised. The Content Writer is responsible for the creation of new content in the form of flyers, videos and other media as required to brand and market RTI, as prescribed by the RTI Branding manual and guidelines. We want to create a global digital positioning which is the need of the hour given the prevailing COVID situation. Digital marketing is the need of the hour and should be a focus area for us going forward. Our brand positioning would benefit immensely by such an initiative. Certain associations have used this tool effectively, and it shows in their membership growth numbers.

ROUNDTABLE
INTERNATIONAL

TABLER.WORLD

Tabler.World continues to be one of the differentiating keys in Round Table. We are committed to the continuous evolution of the Tabler.World platform. We are very happy to see additional associations being onboarded and even more so by the usage of this tool by our RTI Family members. The planned developments in the coming year will revolutionise the platform as can be seen on the development roadmap as part of the OVF report.

CONSTITUTIONAL UPDATE

The Constitutional working group has done exceptional work during the Covid -19 crisis. This work will continue in the coming year and will have the full support of the incoming board. Ensuring that we spend the time now to do this right will reap substantial rewards for many years to come.

ROUNDTABLE
INTERNATIONAL

GLOBAL SERVICE PROJECT – REPORT

At the HYM held in Luxembourg in February 2020, the plan to start working on a global community service project was discussed. We set a milestone to form a working group in order to explore this further and to provide feedback at the 2020 RTIWM.

Work done to date

Since the HYM, we have formed a group of 19 individuals, representing 15 different associations who have worked on the concept of the Global Service Project, its implementation and its long-term future.

The team held multiple meetings and created 5 key focus areas, or Pillars, that we as Round Table will focus on. These Pillars are broad in scope in order to allow associations to easily do projects to advance these causes. A vision and mission were developed for each of these pillars and these are attached on the following pages.

Moving forward

We plan to update the RTI Cares website with these Pillars and this website will also be the main exposure point for the Global Service Project. In the coming year, we will encourage associations to participate in projects that would fit into these 5 Pillars so that we can show the combined effect that Round Table has on a global scale.

Our development of the Global Service project is still ongoing, and we will be able to provide a further update and more concrete steps in the upcoming HYM in Sri Lanka.

Our thanks

I would like to personally thank the entire team working on the Global Service Project for all the work that they have done on this. Without your valuable input and dedication, we would not be able to move forward on this.

ROUNDTABLE
INTERNATIONAL

OVERALL VISION AND MISSION

VISION

To apply Round Table's unique advantage of an international fellowship of diverse professional young men to bring about ideas and actions to make an impact on local communities on a global scale.

MISSION

- To unify the common purpose of creating enduring change within local communities that Tables across the globe so diligently serve
- To turn current reporting data about community service into useable information and in turn convert that information into insight about Round Table's global impact and change created by our organisation
- To turn ground-level and globally created insight into marketable expectations, memories, stories and relationships for use by our members
- To partner with other service organisations to ensure the longevity of their combined efforts

HEALTH

Vision

To strive towards achieving access to affordable and high-quality health care for every individual in a dignified manner

Mission

To develop and enhance the investment and distribution of critical health care in our communities

- To initiate and support front line medical projects in our communities
- To assist and support front line medical organisations and personnel in times of crisis
- To educate and equip local communities to stop the spread of preventable diseases
- To raise awareness of mental health issues
- To volunteer where possible in our local communities

POVERTY

Vision

The alleviation of poverty by means of the local action of Tablers through a combination of long-term community projects and the creation of opportunities whilst ensuring the continued fulfilment of today's most basic human needs.

Mission

- To identify and address poverty within each club's own community
- To be responsive to the changing impact of poverty within each club's community
- To be committed to the advancement of dignity to those living in poverty within each club's community
- To create new opportunities to leverage community projects
- To ensure empowerment through job opportunities
- To ensure the fulfilment of today's basic human needs through the provision of food and clean water

ROUNDTABLE
INTERNATIONAL

EDUCATION

Vision

Create a world where every individual has the means to a meaningful education and a better future.

Mission

- To help in the eradication of illiteracy across the world by engaging with schools and other educational institutions
- To provide physical infrastructure such as classrooms
- To provide a safe and happy environment for a child to study
- To focus not just on education but also skill development
- To equip individuals with tools to be independent and able to earn a livelihood

CONSERVATION

Vision

To ensure future generations can share in our natural resources and historical monuments by taking action today in our communities to protect this heritage and environment. We conserve now, to protect our Future.

Mission

- To identify and conserve the natural and historical heritage within each club's own community.
- To be responsive to the changing impact of future development within each club's community
- To create a measurable impact in our local communities through our efforts
- To share best practices between Tablers throughout the world to enhance responsible use of resources among our members
- To create awareness on conservation related matters within each Table's local community

ROUNDTABLE
INTERNATIONAL

TABLER 4 TABLER

Vision

Our Tablers ensure support on different levels to help out their fellow members when they are in need of help. The RT organisation has an open and safe structure on a global level which is easily accessible for members to reach out when there is need.

Mission

Learn from existing associations and their running projects/solutions and implement their success stories

- To create awareness among Tablers about possibilities/solutions offered by RTI and its member associations
- Make RT an organization which feels safe to reach out to when you're in need
- To organise events and projects to create awareness and to lower barriers to ask for help
- To ensure that there's structured support on local, national and international level

ROUNDTABLE
INTERNATIONAL

RTI UNIVERSITY

Motive

93 years since its establishment, is apt instead of the current sentence. Round Table has crafted young men from all walks of life into fine Gentlemen, who have gone on to do bigger and better things in and for the society. From being Motivational Speakers to Stand up comedians and From motivational speakers to stand up comedians, from movie stars to high-profile politicians who have even been at positions as high as a Prime Minister – Tablers have made waves in all professional arena.

Thus, as we strive ahead in Community Service and Fellowship, addition of this facet is linked to personality development of an individual. Along with it, it can help in learning, enhancing our outlook in tabling related matters as well as other industry matter along with sharpening the personal skills and knowledge. Leadership and Personal Development Program inspires to unleash the leader in you and exercise your power of mind.

The various aspects in RTI University are:

1) RTI Board Training

This year for the first time, there will be a formal training program for the RTI Board Members along with the board assistants by professional facilitators. The aim is to enhance the knowledge base along with build in strong dynamics of team building and team work. It will also involve role specific training focusing on planning, execution, communication channel and clear understanding of authority and responsibility of each individual member.

2) Association Training

Various associations specially smaller ones with less members and are striving to grow further are requiring various kinds of training for tabling matters. This facet shall help them in organizing the same with coordination with experienced facilitators and trainers. We shall also have experience sharing programs from seasoned tablers and help them in enhancing the tabling culture in their country. Certain programs at the regional level will also be organized.

3) TED Talks

Round Table International's Talk Show focuses on tablers that have made a difference and continue to do so. Tablers will join us to talk about their experience and how Round Table has helped in shaping their journey and what it takes to be there what they are today. We might be having some industry expert for better showcasing as well.

4) Webinars

Covid – 19 situation has given all of us a new dimension in life with the virtual world. Embracing the virtual reality, RTI in its aim to provide some benefits to its members will be organizing different webinars with industry leaders and experts across the world. We shall be promoting tablers who are experts as well as non tabler industry experts for the same. We aim to have it frequently taking different aspects of the economy and industry.

ROUNDTABLE
INTERNATIONAL

5) Leadership Conclave

All of us would have consensus, tablers can learn more when we physically meet and have a program with fantabulous fellowships. The Leadership Conclave is a physically present program, where different experts, trainers and facilitators are going to be invited and a LAPD (Leadership and Personality Development) session will be organized. The same will have fellowships and will be organized at a proximity location for most of the member associations.

6) The Scent of Change

It is a concept where stories of tablers that changed their lives because of tabling will be published. The stories should be of the day the tabler realised the value of tabling, the life changing experience of tabling, inspirational /heart touching. The stories are expected to be squeezed in 700 to 1000 words. These stories will eventually turn into a coffee table book of extraordinary stories. Last date to submit stories is 1 Dec 2020.

**Experiences that changed
lives for better...
... and forever!**

**A collection of real life incidences
that have changed lives of tablers
across the globe!**

SHARE YOUR EXPERIENCE TODAY!

THINK BIG

This August, history was created in Round Table International.

The first ever training program, called Think Big, was conducted for the incoming Round Table International Board 20-21 under the initiative of RTI University.

It was not an easy journey leading up to the program. The entire curriculum of the program had to be created from scratch. After a lot of brainstorming sessions and zoom meetings with the entire team involved in creating this program, the lead facilitators

for the program, Narender Agarwal, Himanshu Gupta, Majid Tunda, Graham Cornelissen and Jeroen De Graaf decided on the best possible agenda and schedule for the program.

The fact that the entire program was going to be conducted online, had its own advantages and disadvantages.

The purpose of this training program was to increase the brotherhood, bonding and teamwork among the 17 incoming RTI Board members, and to impart necessary information and knowledge related to the working of RTI board to them. Empowering the RTI Board members to create their plans for the year, was also one of the critical aspects of this training program.

The program was conducted online on zoom, for 11 hours spread over 3 days from 14th to 16th August 2020.

In the beginning, the facilitators and organising team was apprehensive about the sustained interest of the incoming RTI board members towards this program for 11 hours, but the participants proved everyone wrong.

Each and every board member was extremely interactive, punctual, and participative during the entire training program.

Engagement with the participants started a week before the zoom sessions on WhatsApp, which led to the participants getting to know each other better.

During the live Interactive sessions, Modules were conducted on team work, planning, goal setting, time management, communication skills, strategy making and leadership skills for the participants.

Aspects such as structure and working of the RTI Board, History and current data of RTI, finances relating to RTI, legal structure and Constitution of RTI, guidelines and best practices, along with Dos and Don'ts for the RTI Board and roles and responsibilities of the RTI Board members, were also shared and discussed with the participants during the course of the program.

ROUNDTABLE
INTERNATIONAL

There were a number of Past Presidents and speakers, who helped in imparting these modules and sessions during the program.

We also had the presence of some important guest speakers from 41ers International and Ladies Circle International and Tangent International to inspire and motivate the participants during the program.

Incoming President DK Singh shared his plans and expectations from the RTI Board to culminate this historic training program.

The feedback received from the participants, at the end of the program were heart warming and is a testimony of the fact that the first ever RTI Board Training Program was extremely successful and was able to achieve its goals.

This training program has opened up the doors for multiple training programs, at all levels, to be conducted in future in Round Table International, which is going to benefit Tablers across the world.

We can definitely say that RTI University here to stay.

ROUND TABLE AUSTRIA

ROUNDTABLE AUSTRIA

One of our biggest projects is the yearly “Weihnachtspackerlaktion”, where we work together with Round Table Romania to deliver roughly 12.000 Christmas presents to children who otherwise would not get any.

It makes us happy and proud that this is almost the same number as last year. The only sad thing is, that this year we might not be able to be in Romania to deliver the presents ourselves and see the joy in the children’s eyes.

Another big part of our service are our 90/10 projects.

The name includes the idea of using 90% of the charity-money in Austria, and 10% within the RTI universe.

As of tradition we always support our Twinning partners:

Mauritius, Sri Lanka and South Africa.

Every year we choose different projects suggested by our friends of these associations.

What probably hurts us most is the inability to see each other personally, as the real contact is the foundation of friendship and fellowship.

Current regulations in Austria are quite strict in gatherings above 10 people within closed rooms.

But we are sure: We will get through all this hardship together and will be stronger because of it.

With this we wish all the tablers around the world to stay healthy and keep up the great work that makes us an unique worldwide family.

VOT

Voice of Tabler (VOT) survey is an attempt to collect the interests, suggestions on what's working well and what not and pulse-check on few things which RT International might want to initiate. The end goal of VOT is to get actionable Tablers feedback, suggestions and opinions that could help improve the overall Tablers experience to benefit overall movement. The focus is heavily on creating amazing tabling experiences and to create amazing experiences, we first need to collect data and VoT survey would be the best way to do that. We can fill the form at Vot.round-table.org

SOCIAL MEDIA UPDATES

Over the last few years, The world has completely moved on social media, it has become an integral source of communication. It is the only way where we can reach out to the maximum number of people, all across the globe and tell them what kind of great work RTI is doing worldwide. RTI Team, hence, is trying to increase the social media presence, by increasing likes and followers on various popular platforms. The statistics for last one month shows that we are moving in the right direction towards our goal.
