**VINAY
AGARWAL**
RTI PRO

Greetings from the PRO desk. As the world is on the brink of triumph over COVID 19 tabling activities are slowly and cautiously inching up. While we all gear up for a staggering number of activities as soon as a cure is found I request all associations to send articles along with pictures on any tabling activity they feel will motivate and keep the spirits high of our readers across the globe high. Please send a writeup along with pictures on pro@round-table.org

This edition of the newsletter contains

- 3 years Strategic plan for Round Table International by Vice President Graham Cornelissen
- Regional update by NEA Chairman MercelloCucinotta
- TABLER.WORLD update by Daniel Steffen
- Intriguing plans of RTI University by Jayant Agrawal
- Article and Photographs of awesome activities happening in RT Canada and RT Denmark
- Details of the first Councillors Meeting of RTI.
- The phenomenal success of the first Social Media Training.
- Answers of the 1st RTI Newsletter Quiz
- 2nd RTI Newsletter Quiz

- Exciting news about RTI Facebook.
- Digital Content Creating or RTI – Update by Paul Hoeksema
- RTI World Meet 2021 details.
- Voice of a tabler survey.
- Advertisement opportunity in RTI Newsletter

Friends Round Table International newsletter is an incredible opportunity to advertise your profession/business with like minded people across the world, please find the details in this magazine for the same.

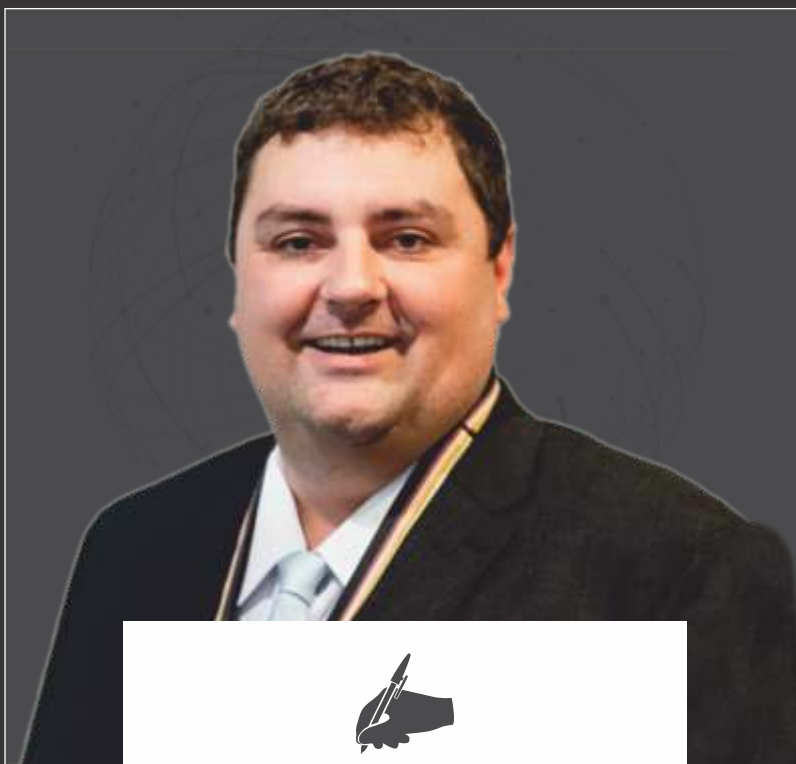

For any help, comments, feedback and/or advice for the PRO and Social Media team, please get in touch.

**GRAHAM
CORNELISSEN**
RTI VICE PRESIDENT

Dear Brothers

It has been seven weeks since I stepped into the role as your international Vice President. Last month I wrote about the reason as to why I stood for this role. This month, I am sharing our three-year strategic plan outlining our core efforts and areas of focus.

One of the primary responsibilities of the Vice President is to take responsibility for the planning and updating the overall 3-year plan of RTI, including expansion related projects. With the assistance of Past RTI President, Jeroen de Graaf, the OGSM model framework was refined and presented to the floor councillors at the beginning of October.

Our primary focus for the next month will be to support men's health with our partnership with the Movember Foundation as well as expanding awareness of Round Table to new members via the #EachOneBringsOne initiative. We will also be rolling our three-year plans on a regional basis at the end of November.

The main goal of creating this long term strategic plan is to set ourselves a clear end goal to work towards.

We as a board are committed to achieving these goals and will report back on our progress during the RTI Half Year and World Meetings. This rolling plan will be updated by my successor to ensure that we always have a clear picture of where we are heading.

Before closing, please take 5 to 10 minutes and complete the RTI Voice of Tabler survey. We are looking forward to your feedback that will shape our future even more.

ROUND TABLE GROWS WITH QUALITY MEMBERS

GOALS	STRATEGIES	MEASUREMENT	DRIVER
Grow the total number of Tablers in existing associations to 34,000 at the 2023 RTIWM	Assist and support existing associations to grow using guideline, tools, branding and training available in RTI	<ul style="list-style-type: none"> • AMI - 1430 (21); 1530 (22); 1700 (23) • ASPA – 5250 (21); 5500 (22); 5800 (23) • CEE – 12320 (21); 12700 (22); 13100 (23) • NEA – 7750 (21); 8150 (22); 8600 (23) • SEM – 4300 (21); 4525 (22); 4800 (23) 	Regional Chairmen and RTI VP Support

**MARCELLO
CUCINOTTA**
NEA Chairman 20-21

Hello brothers,

I was invited to RT-4 Vaasa 2013. In Vaasa, Finland we have three RT and three LC clubs with approx. 120 members, and we also work side by side with Old Tablers (41 Club) and Tangent Club. I consider this is an exceptional number of clubs and members to a city with only 60,000 people.

With this information I want to show the potential which we can together achieve anywhere and get more members to join our organization. This year has been challenging, but in the RTI world we want to cherish and spread the word about what we do, and who we are. I am proud of belonging to Round Table and would like to have more like minded people to share this experience and privilege.

In RTI we have set a target this year that. "each one, bring one" - In my home club we are constantly following the age structure and keep the balance in the amount of Tablers to avoid such situations, where we would face a panic to get new members. We prefer to plan and keep this in our mind constantly. This is to be kept in mind on a national level, regional level and finally on an international level.

When I was elected to RT, I immediately became interested in the international side of RT. In 2017, I was elected as IRO of Finland and had the honor of representing Finland to the world. I traveled every week, but I also understood that if I was to be able to represent Finland, I had to get to know our brothers in Finland, so I decided to go to as many national events as possible as well.

In my current position as NEAR chairman I have had the advantage of traveling in my earlier position and getting to know many of our brothers. This was also something I had planned to continue during my chairman time, but so far because of the traveling limitations I have only had the opportunity to visit AGM of our neighboring country Estonia. In NEA region we have strong associations with long history, but we also have smaller associations which need all the support. This year in NEAR we have had such great milestones as the 30th anniversary of RT Estonia, 50th anniversary of RT Iceland and the 80th anniversary of the oldest association in our region, RT Denmark.

I also see that we have great opportunities in the Americas area - the latest initiative from RT Americas side is in Mexico, where we have already nine brothers in Cancun area and nine brothers in Mexico City. We have established a group which is having contact with them actively.

When I was elected NEAR Chairman in Tallinn in 2019, you would never have imagined that it would be such a challenging time. What can you do in a crisis like this that involves the whole world? One can try to turn away the impending panic feeling and turn the attitude into positive.

In RTI we work hard and try to enjoy the time and support your brothers. It is not the same as I had thought because I have not had the opportunity to even meet the brothers that you work with daily and traveling has not happened. Although it is challenging, we try our very best to grow and "Lead the change". I hope that members will contact me and ask for help if there is something you wonder or just want to chat about daily things. It is important to be in touch with the brothers in these challenging times.

Some things that you did not maybe know about me:

- I was born in Finland, but I also have Italian nationality and therefore I have had the honor of playing floor ball in the Italian national team for seven years.
- I speak 5 languages fluently: Finnish, Swedish, English, Italian and German.
- My nickname is Limoncello.
- I am also the Vice IRO of Ital

TABLER.WORLD
Manager 2020-2021

Dear friends,

TABLER.WORLD is not a sprint - it is a marathon. And every year we take a deep breath to further develop our new digital home. We are especially proud that AGORA International has recently joined the .World ecosystem. Soon we will be complete. All five clubs under one roof. We are proud of this. Furthermore, a lot has happened in the last few weeks: LCI has now opened Circler.World for us. We can now find each other's members and get in contact with them (of course taking into account all privacy settings). Furthermore, the ladies will soon also use our app. A milestone on our digital way to side-by-side. For those who would like to know what's new in TABLER.WORLD, a new module "Latest Releases" will soon provide detailed information about current developments. And in future TABLER.WORLD will inform you automatically by email about the possibilities TABLER.WORLD offers for the respective board function when you get your chains. It is also great that we are in talks with RT The Netherlands, RT Great Britain & Ireland, RT France, RT Denmark and RT India. We are already looking forward to find our brothers in TABLER.WORLD in the near future!

But that is not all. We are working as the whole Round Table Family on further new modules and features. It

remains exciting every day and I am looking forward to tell you more about it at the HYM in Sri Lanka But until then I have one request: you are or know nerds, IT professionals, project managers or simply passionate tablers who want to make not only the world but also our digital home a little bit better? We are looking for exactly you! We need exactly you! Help us and create the future of TABLER.WORLD! If you are interested or know the perfect tabler for this, get in touch with me and we will find a task for you - I promise!

YIT

**JAYANT
AGRAWAL**

RTI University
Manager

RTI UNIVERSITY

Motive

For the past 93 years since established, Round Table has crafted young men from all walks of life into fine Gentlemen, who have gone on to do bigger and better things in and for the society. From being Motivational Speakers to Stand up comedians and from Movie Superstar to active politicians who've reached as high at Prime Minister – Tablers have made waves in all professional arena.

Thus as we strive ahead in Community Service and Fellowship, addition of this facet is linked to personality development of an individual. Along with it, it can help in learning, enhancing our outlook in tabling related matters as well as other industry matter along with sharpening the personal skills and knowledge. Leadership and Personal Development Program inspires to unleash the leader in you and exercise your power of mind.

1) RTI Board Training

This year for the first time, a formal training program for the RTI Board Members along with the board assistants by professional facilitators was conducted. OT Himanshu Gupta and OT Narender Agrawal along with our Past Presidents RTI Jerone, Kaj, Yann and Majid facilitated the whole 11 hours program. The aim was to enhance the knowledge base along with build in strong dynamics of team building and team work. It also involved role specific training focusing on planning, execution, communication channel and clear understanding of authority and responsibility of each individual member.

2) Association Training

Various associations specially smaller ones with less members and are striving to grow further are requiring various kinds of training for tabling matters. This facet shall help them in organizing the same with coordination with experienced facilitators and trainers. We shall also have experience sharing programs from seasoned tablers and help them in enhancing the tabling culture in their country.

Certain programs at the regional level will also be organized. We shall also be focusing on organizing IRO's and Vice President's Training Program which will help them to be better prepared as they take over the important roles in their association leadership.

Social Media Training in the month of October got good response with participation from 13 associations. We also plan to have a Treasurer's training in December and Secretary's training in January.

3) RTI Table Talk

Round Table International's Talk Show focuses on tablers and non tablers that have made a difference and continue to do so. Participant will join us to talk about their experience and discuss and share about their journey till where they are today. We might be having some industry expert for better showcasing as well. The aim of the show shall be to provide motivational and inspirational words to the fellow tablers. First episode of the same is going to be released in November. Taking this opportunity if any of the association have contact and want some one to be showcased request them to be in touch personally.

4) Webinars

Covid – 19 situation has given all of us a new dimension in life with the virtual world. Embracing the virtual reality, RTI in its aim to provide some benefits to its members will be organizing different webinars with Fellow Tablers, Industry leaders and experts across the world. We shall be promoting tablers who are experts as well as non tabler industry experts for the same. We aim to have it frequently taking different aspects of the economy and industry.

5) Leadership Conclave

All of us would have consensus, tablers can learn more when we physically meet and have a program with fantabulous fellowships. The Leadership Conclave is a physically present program, where different experts, trainers and facilitators are going to be invited and a LAPD (Leadership and Personality Development) session will be organized. The same will have fellowships and will be organized at a proximity location for most of the member associations. However, looking at the current scenario, we might be doing a small subject focused training through professionals online as well.

6) Voice of Tabler Survey

The Survey aims to bridge the gap between the RTI Board as well as floor tablers internationally. Learning more about the satisfaction and behaviorally attitude of tablers with respect to tabling will be sorted through it. A formal analysis by an expert will be done for the data received and shall be provided to the International board as well as association specific on request of the particular association board. The survey is launched and hoping for an encouraging and valuable feedback.

7) University Tie Ups

Being a young men club, we always aim to stride forward to learn and explore more opportunities which shall help us in future endeavors. Putting the similar target, RTI University shall get in touch with renowned colleges and universities across the world and try to get some special offers on various training courses, modular learning as well as other learning programs. Enhancing the personal skills and knowledge and providing leadership and personality development opportunity will be the focus area.

8) Scent of Change – Life Touching Stories

Many tablers in their tabling journey have experienced events which have put up a significant impact in one's life. We want to consolidate such stories which actually have been life changing, life touching or an effort from someone which was beyond their normal boundaries or capacity. We want to live the spirit of "Tablers are brothers from other mothers." Having a consolidated story book might be really useful for future reference and also strengthen our philosophy of brotherhood and fellowship.

ROUND TABLE CANADA

It is now the start of our fourth year as a Round Table club in Canada. Starting a year with Covid-19 numbers rising is difficult especially as we head into our winter months where we anticipate the numbers to spike. That being said, last month, before it really started to get bad, we were able to kick the year off with a meet up in person and start the year off with optimism and fellowship. On a windy day we found ourselves on a hike at Devil's Punchbowl along the Niagara Escarpment in Hamilton, ON.

We were joined by a fellow 41ers as well as our first prospect for the year. The hike was then followed by our first official business meeting at a nearby restaurant called Baranga's on the Beach which looks like a Mediterranean beachfront. We ate Greek food and talked about the future of the club.

This year we aim to raise money for both Movember, as we did last year, as well as money to buy food for a local food bank and help feed the homeless. We have three mandates this year: Grow our club to sustainable levels, help with establishing new clubs in Canada, and help LC gain steam in Canada so we can have our sister club to grow alongside RT.

On that note we do have some things heating up as the winter approaches. In the cities of Vancouver, Montreal, and Calgary we now have members who are looking to put in the work to build the clubs and establish those cities as the next RT club in Canada. We are still going strong in Toronto and always looking to grow in this region

ROUND TABLE DENMARK

Dear Tablers,

2020 has been a seminal year. As tablers we know the value and importance of networks between people, clubs, and countries. Yet, the world-wide outbreak of COVID-19 has proved that connectedness also can yield negative consequences.

This year we were excited to host Round Table World Meeting. It would have been truly special for us to welcome tablers from all around the world, in order to celebrate and accelerate international connections. Especially since Round Table Denmark celebrate its 80-year anniversary this year.

The inaugural Danish club - the first outside UK - was established in 1936, and Round Table Denmark organized in 1940. Now we have app. 2300 active members in 131 clubs, two of which chartered last year, and additional clubs are expected this year.

In Round Table Denmark we have long and proud traditions of facilitating networks between young professionals. We think that the Danish way of tabling consists of being true to our valued traditions of Round Table, while being open to adoptions, adaptations, and improvements.

One such innovation is that we recently redefined our articles of association, such that the substantial amount of our surplus is donated to charity. Every year we decide on a charity for the following year's donation from a range of proposals from member clubs. The club(s) whose charity is selected subsequently spearhead the nationwide initiative. The money we raise is not only from the

organization surplus, but mainly from member-driven activities, such as auctions, as well as sale of pins and other merchandise.

In 2018/19 we donated 50.000 EUR to Knæk Cancer (a nationwide effort to raise money for cancer research culminating in a televised event), in 2019/20 we raised 35.000 EUR for Mio, the Greenlandic national advocacy center working for children's rights. This year we are raising money for Cystisk Fibrose Foreningen, a Danish charity helping patients with cystic fibrosis. This is an illness that several of our members experience from close quarters, either by being patients themselves or having a child with the illness.

Aside from our annual project, Round Table Denmark also team up with Ladies Circle Denmark in order to contribute to the Julegavekonvoj (en: Convoy of Christmas gifts) similar to the German "Weihnachtspäckchenkonvoi", where we collect and send gifts from Denmark to poverty-stricken children in Eastern Europe.

See, despite the negative consequences of COVID-19, networking and connectedness can also yield positive outcomes. As tablers we have the platform, and thus the responsibility, to keep up the positive dialogue through our close connections to each other. This is our belief in Round Table Danmark, and we will continue to let our voices be heard, albeit temporarily muffled by face masks.

On behalf of Round Table Danmark

Jesper Tanggaard Schmidt

THE SOCIAL MEDIA TRAINING

Keeping ourselves aligned with the theme of the year "Lead The Change", RTI Board for the first time decided to conduct the Social Media Training for the Floor. Our PRO Team lead by Vinay, Paul and Vishal and IT Manager Gaurav, after much deliberations with the active participation of Shankey Bansal (LAPD Convener, RT INDIA), were able to organize a fruitful, knowledgeable and value addition training program.

Understanding the new reality and importance of digitalization in tabling, social media training was focused more on the aim of GROWING TOGETHER. Shankey being an expert threw valuable insights about social media platforms like Facebook, Instagram and Linked in. Many aspects were shown and shared with live demo. The whole training was basically focused in three objectives, Finding and increasing the member base, Attracting Corporate Sponsors and Increasing the reach of the Associations Digitally.

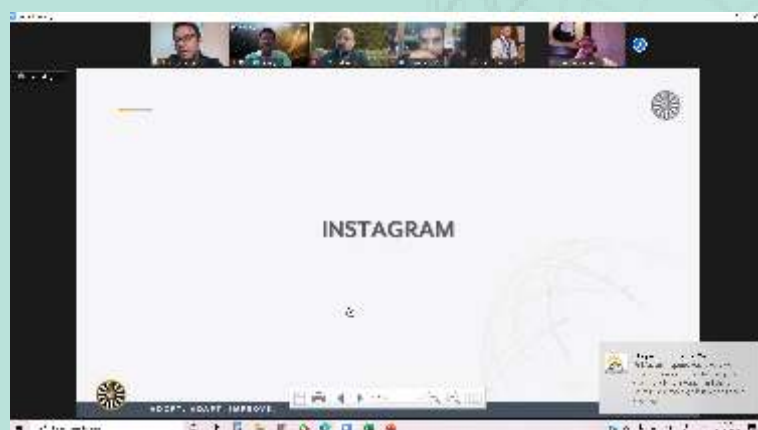

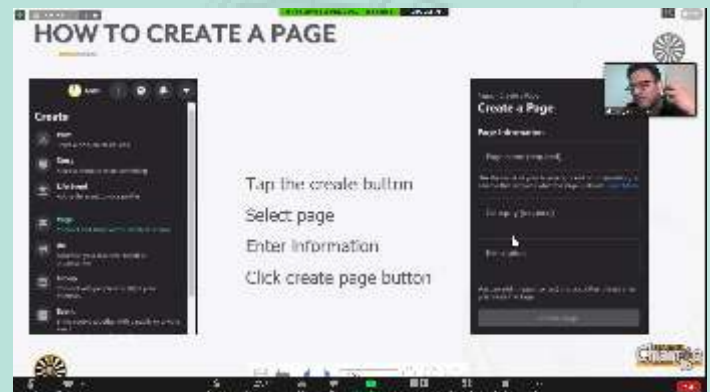

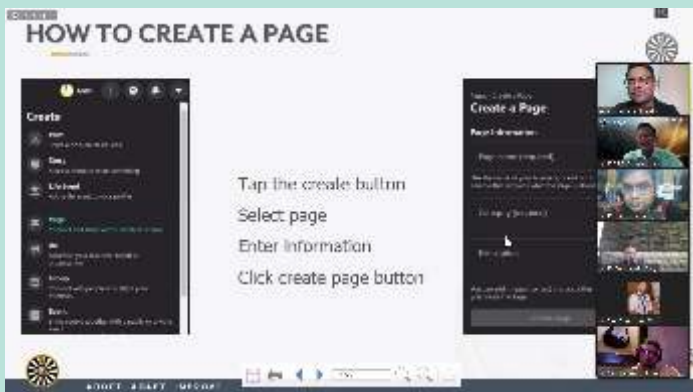

It was an interactive two hours session with active participation from RTI Board and representation from about 13 associations. Certain highlights and important points about RTI Branding Guidelines and Dos and Donts' in Social Media was shared. Giving importance to associations website, IT

Jayant Agrawal
RTI University Manager

Team also offered the members in doing a complete website audit and showed a demo on RT Nepal. The feedback received from participants after the training was overwhelming and shows the interest and importance of fellow tablers with Leadership and Personality Development aspects in RTI.

WORLD HABITAT DAY
5 OCTOBER 2020

SUPPORTED BY
ROUNDTABLE
INTERNATIONAL

The United Nations' (UN) **World Habitat Day** is annually celebrated on the first Monday of October to reflect on the state of human settlements and people's right to sufficient shelter. It also aims to remind people that they are responsible for the habitat of the future next generations.
